## Description

# FULLTEC IMPULSE

**Fulltec Impulse Corn/Soy** is a combination of four products that were researched extensively. These products not only promote vigorous plant growth but also prepare plants to better tolerate stress.

### Main Benefits:

**Efficiency**

The EDTA provides the nutrients with an organic coating, improving their absorption and translocation.

**Technology**

Combination of amino acids and nutrition to prevent losing yield potential throughout the season.

**Convenience**

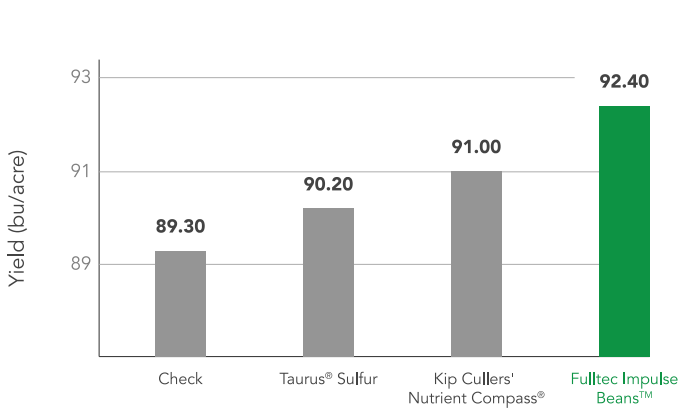

Fulltec Impulse provides more benefits in one box than multiple products do separately.

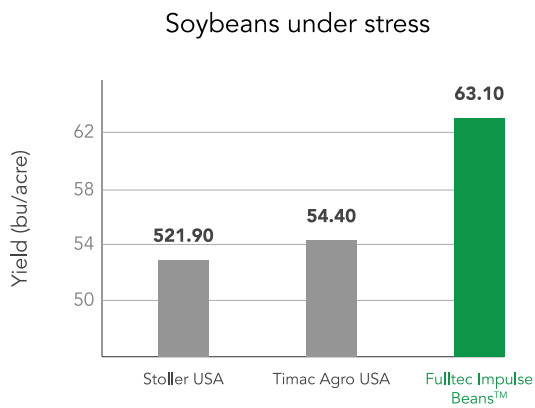

## Directions

Product	Rate of Fulltec Impulse	Timing	Notes
Impulse Soy	100 - 120 acres pack	Foliar V4 - R1	Products should be added to the tank in sequence 1 to 4.
Impulse Corn	100 - 120 acres pack	Foliar V4 - R1
