FULLTEC

## Description

**FULLTEC K**

**Fulltec K** activates both a plant's metabolism and root-system enzymes responsible for controlling grain fill, ensuring photoassimilates (sugars, proteins, and starches) are moved into the grain prior to harvest.

### Main Benefits:

ROI

Moves photoassimilates into the grain, ensuring all season-long investments show up in the grain tank.

Synergy

Fully compatible with fungicides, insecticides, herbicides, and plant growth regulators.

Stay-green

Nutritional package that extends the photosynthetic period, allowing plants to "pack" more nutrients into the grain.

## Directions

Crop	Rate of Fulltec K	Timing	Notes
Soybeans	4.0 - 5.5 oz/acre	Foliar R1 - R5	Check label for more details.
Corn	4.0 - 5.5 oz/acre	Foliar R1 - R5	
Cereals	4.0 oz/acre	-	

## Comparative

2021 trials - Precision Ag Research, Clarion, Iowa.  
Fulltec Cube 4.0 oz/acre (R1). Fulltec K 4.0 oz/acre (R4). Fungicide (R1).
