FULLTEC

## Description

# FULLTEC ULTRA

**Fulltec Ultra** utilizes Spraytec's plant health technology and the right levels of manganese to prevent White Mold (*Sclerotinia stem rot*) caused by glyphosate-induced manganese deficiency.

### Main Benefits:

**Availability**

Nutrients EDTA chelated guarantees absorption and full availability during application.

**Compatibility**

The Fulltec technology prevents chemical incompatibility and improves the quality of the application.

**Harmless**

Fulltec Ultra reduces plant injuries and stress caused by chemical applications.

## Directions

Rate of Fulltec Ultra	Timing	Notes
4.0 - 5.5 oz/acre	V3 - R1	For white mold, the first application should be at R1 (early bloom) and the second application 14 days later.

## Results

2017 trials - Spraytec R&D.  
Fulltec Ultra 4.0 oz/acre @V5

2019 trials - Spraytec R&D; All dishes infected with white mold (*Sclerotinia stem rot*)  
Fulltec Ultra 4.0 oz/acre @V5
